# Tour/Workshop Program

## Fall 1999

*In View of Nature* and *Jaime Davidovich*  
September 30, 1999 - January 12, 2000\*

### *The Tour/Workshop Program*

During this 90-minute program, classes participate in a guided tour of the exhibition and a related hands-on art project. In connection with the exhibitions *In View of Nature* and *Jaime Davidovich*, students will create their own landscape. The Tour/Workshop Program is designed for students in grades K-12 and sessions are held Monday through Friday from 10:00-11:30am. A fee of \$30.00 per class is required to help cover the cost of materials.

#### *In View of Nature*

An exhibition of contemporary large-scale installations, sculpture, photography and drawings dealing with nature by eight artists as they explore a wide range of issues using unconventional mediums.

#### *Jaime Davidovich*

Jaimie Davidovich seamlessly blends traditional impressionist painting and textured canvases with video to create layered animated images that are at once static, fluid and lively.

#### *Curriculum Guide for Teachers*

Teachers will receive a curriculum guide which includes background information about the exhibition, biographical information about the artists and suggested pre- and/or post-visit activities related to the exhibition's content. This guide can be used to help prepare your students for their visit to the Gallery.

#### *To Schedule a Visit*

Reservations are made on a first come/first serve basis. For more information or to schedule a visit contact Lise Kjaer or Sandra Ann Henry, Education Coordinators, at (718) 960-8732.
